

November 4, 2012

Dear fellow Ohioans,

It's time to go vote. And bring your friends.

We have offered Ohioans a choice between Republicans who have balanced the budget, cut taxes and created jobs, and Democrats who created the \$8 billion deficit, increased income taxes and saw unemployment skyrocket in Ohio under their watch.

Our candidates are those who know that jobs are created by successful businesses, and we like that. We are eager to use Ohio's energy resources, creating more jobs and helping our nation become energy independent.

We have scaled back government, making it more efficient and effective—removing more of the bureaucracy that no one wants to deal with. We have also made other import reforms, such as cracking down on prescription drug abuse and making smarter criminal sentencing laws.

Ohio has made improvement under our leadership, and we hope you will support our candidates as a vote of confidence in the direction we are heading. Keep us in the majority, and we will promise to do even more in bringing Ohio back again.

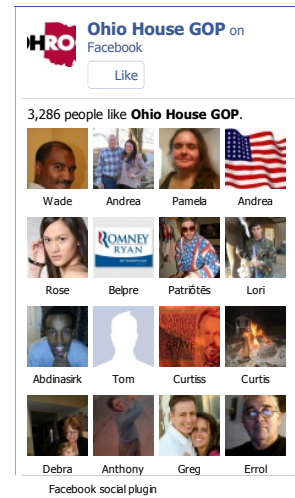

Thanks for all of the support you have given us throughout this election season. We appreciate it very much.

Sincerely,

Rep. Matt Huffman
OHROC Chairman
